7F - HAND TIED SPRAY BOUQUET

We can create the above in your choice of colour or favourite flowers.

Our living arrangements offer an alternative to cut flowers. The concept of plants 'living on' helps reaffirm the beauty of life and existence. Plants from the arrangement can be replanted in the family's gardens or a place special to the loved one. Our families tell us this brings such comfort, at such a difficult time.

We are a local family business, who care very much about our wonderful coastline. We are working with Redcar & Cleveland to reduce our use of single use plastic; we really want to offer our customers a more sustainable option.
